DEDICATION

Doctor Cantonwine came to Lakeside during 1942, when the Lakeside faculty and staff were faced with a period of great strain and trial. Doctor Cantonwine's record in dealing with all of the obstacles brought about by the war, and also those which came later, speaks for itself. The teaching of algebra, geometry, and fusion to succeeding generations of Lakesiders is a part of that record. Another part is the countless seasons of track, football, and basketball, varsity and club, which found him driving and leading his payers on to give their best. Students in his classes, varsity track men, Parson athletes, those who taught near him or coached opposing teams—all of us will remember with affection his outraged roars of pretended scorn at the foibles and follies of math students and athletes. We will remember him on the football field, at home games, and games away, stopwatch in one hand, timing gun in the other, following the tide of play up and down the field. We will remember his readiness to do his share, no matter what the cost to him in time and inconvenience.

We dedicate this annual to Doctor Cantonwine whom we will always remember as an excellent master, a superb coach, and, above all, as a true friend to everyone at Lakeside.

JEAN A. LAMBERT

FACULTY

Early in his Lakeside experience, a boy comes to the happy realization that his instructors are his friends. Countless times the advice and encouragement received from Mr. Strong, Mr. Lambert or an advisor goes beyond class instruction. It is from these men that we have gained a firm foundation that will serve us in college, in the armed forces, and in the world. It is not an exaggeration to say that the Lakeside faculty does an excellent job in education for life. "Just as the twig is bent, the tree's inclined."

Therefore the Class of 1956 is grateful to the Lakeside faculty for inspirational guidance as well as for incomparable classroom instruction. Our teachers have fostered in us the most admirable of human qualities as permanent and inseparable principles: honesty, sincerity, loyalty, dependability, and perserverance.

Closely welded are the links of friendship we have formed here, not only with faculty and classmates, but also with the office administration, the infirmary, the refectory and maintenance staffs. Their untiring efforts to make each boy's stay at Lakeside a success is truly appreciated. In years to come we will recall their many kindnesses with sincere nostalgia.

SENIORS.....

THE CLASS OF 1956

On a brisk morning in early September of 1950, the Class of 1956 had its origin. Those of us destined to be "Six-Year Club" members were Deane Carlson, Howard Adler, Steve Rucker, John Cowen, Bert Cassels, Joe Henke, Tim Hall, and Dick Jones. These eight boys made up the small but sound foundation for the Class of 1956. In the eight grade the class added three new members: Jay Baker, Sim Cantril, and the "Yakima Kid," Van Jordan. The next year was to be a new and exciting experience in the Upper School.

It was in the freshman year that our thoughts moved toward the time when we would be Seniors; then, we thought, Heaven help the underclass-men! In our first year in the Upper School, the Class of 1956 added two fine scholars to its ranks: George Powell and Bill Phillips. Two other boys also joined the class that year: Bill Evenson and Towne Collins, one of the finest basketball players in the history of Lakeside.

The sophomore year started off with a bang. In September, six new boys joined the class: Jim Atwood, John Bartels and Toby Walker from Portland, Alan Beall, Denny Watt, and Brooke Albertson. At the end of the first semester these six were joined by Mike Foley from Vancouver, British Columbia. It was during the sophomore year that we noticed time to be slipping by very quickly. We dreamed more and more about the day when we would be Seniors.

As juniors we were slowly but surely getting the feeling of sophistication. The class foundation was strengthened to near perfection with the addition of Dick McCurdie, Sam McKinstry, Spencer Wood, and Jim Rooney. As we received our Senior rings, pins, privileges and responsibilities, we hoped we would write a significant and honorable page in the history of Lakeside.

The Senior year was finally here. To round out the class, four new Seniors joined the ranks. These were Neil MacDonald, Mike Seeber, Tony Chase, and Bill Karr.

As departing Seniors, we certainly hope that we have made contributions that will long be remembered in the annals of Lakeside. We also wish to thank all the members of the faculty for their never-ending attempts to make us mature in mind and body. Lastly, we should like to wish the best of luck to next year's Senior Class and to all succeeding Senior Classes.

HOWARD ADLER

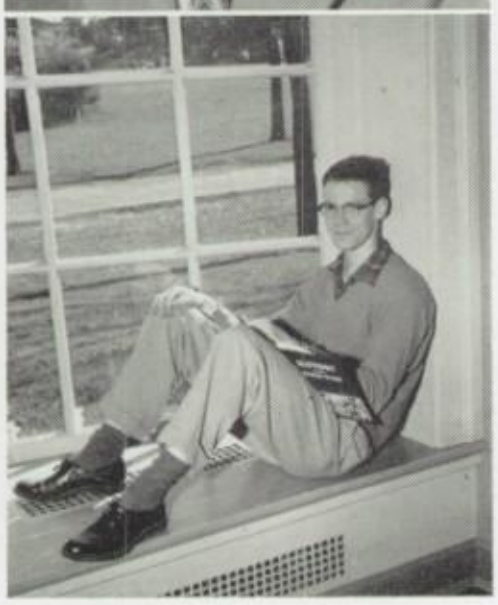
Howard was an outstanding member of his class both academically and athletically. Ever since the seventh grade, Howie has been at the top of his class and an excellent example to his classmates, having been on the Gold Star list several times. He was elected vice-president of his class in his freshman year, secretary-treasurer of both the Athletic Council and the Big "L" Club in his senior year, and a member of the Senate for two terms.

Howard turned out for varsity football for one year, but, unfortunately, he began having trouble with his knees and had to give the sport up. The two sports in which Howard excels the most are basketball and baseball; he is a two-year letterman in basketball and a three-year letterman in baseball. In basketball, Howie was the second highest scorer and the best dribbler on the team in his senior year. His keen sense of humor and enthusiasm helped greatly to keep the morale of the team high. Howie played third base on the baseball team, proving himself proficient at that position; he was also one of the best batters on the team, winning several games for Lakeside with a "home run" hit.

Howie has an extremely sharp wit and a store of ready jokes that help him make friends easily. He always looks on the brighter side of things; and his ability to get along with people will greatly help him in his future life.

College Choice—University of Washington, University of Nevada

Will: I am taking my ears and gold key chain with me!



BROOKE ALBERTSON

Although Brooke was probably the quietest and most reserved member of his class, he has been a great asset to the school and to his fellow students. Brooke did not have a single 'enemy' during his three years at Lakeside; although many students did not know Brooke well, he was respected and liked by all. His main reason for coming to Lakeside was to take advantage of the fine educational standards the school offered; consequently, Brooke has concentrated most of his efforts on his studies. Brooke has been awarded the Gold Star numerous times; his determination and academic prowess will aid him in his chosen occupation as a lawyer.

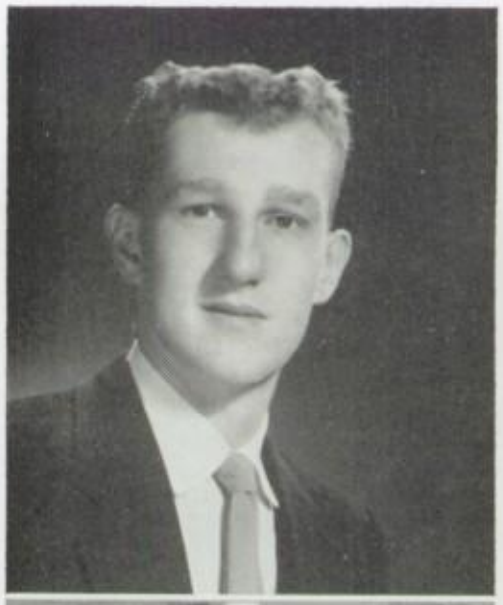
Athletically, Brooke excels in golf, having competed on the golf team for two years. In basketball, he was one of the star players for the Whitcomb club until he was forced to give it up for medical reasons.

We are sure that Brooke will be a success at any endeavor; he has impressed us with his academic reserve and determination. His good attitude in the classroom is typical of everything he does. He wants to become a lawyer; and we are sure that through his perseverance he will accomplish this goal.

College Choice: Whitman, University of Washington.

Will: I will my ability to lose golf balls to Mr. Johnson!

JAMES ATWOOD



Jim has been an outstanding figure in both athletics and extracurricular activities during his three-year Lakeside career. For two years, he has been a member of the Big "L" Club, and was elected vice-president this year; he has served as vice-president of the Dormitory Council, no small task for any student; he has served faithfully and diligently as a member of the Senate; and he has acted as chairman of the Traffic Safety Committee which is mainly responsible for all traffic problems at Lakeside. Through his leadership, the Traffic Safety Committee has functioned smoothly and efficiently in aiding to relieve much of the confusion of the traffic problem; as chairman, he represented Lakeside at the King County Traffic Safety Council, an organization which discusses and tries to solve many of the problems of teen-aged drivers.

During his sophomore year, when he was ineligible for varsity athletics, Jim participated in Whitcomb football, basketball, and baseball. But as soon as he was eligible, Jim competed on the varsity football team, winning two letterman's awards during two years of participation; he likewise played on the varsity basketball team and won two letterman's awards in two years of competition; he was also a great asset to the varsity baseball team during one season of play.

Jim's consistent good spirit, ready smile, determination, and ability have aided him during three successful years at Lakeside; his serious-minded attitude toward the problems that arise will undoubtedly continue to help him succeed as a lawyer or a businessman, his two chosen hopes for a future occupation.

College Choice: Idaho, Arizona.

Will: I don't will anything to anyone; I'm going to take it all with me!

JOEL BAKER

Jay came to Lakeside in the eighth grade. He has consistently been a hard-working scholar, winning several Gold Stars and always making grades to be proud of.

Jay's continual interest in all phases of school activities made it inevitable that he would be outstanding in extra-curricular activities. He was elected president of his class as a sophomore and was re-elected as a junior. He has served with his usual cheerful willingness in the senate during every term of his high-school career. This year he has been a member of the athletic council. Recognizing his outstanding past record, the Student Body elected him their president for 1955-56. In this important capacity, Jay has been excellent, as everyone knew he would be. He was also the Whitcombs' president.

In athletics, Jay has played B-squad basketball, participated on the ski team, made his letter in tennis for two years, and played two years of Whitcomb football.

In addition, Jay has been a cheerleader, feature writer for the TATLER, and a representative both at the teen-age traffic conference and at the religious conference.

No one field stands out in which Jay particularly has excelled, for he has done equally well in each of his many activities. Jay is a fine example of the well-rounded individual.

Will: Jay leaves his personality.

College: Dartmouth.

JOHN BARTELS

When the Class of '56 added John to its membership, it added humor, seriousness, enthusiasm, and diligence all in one bundle. John's sense of humor and his subtle wit are perhaps his two outstanding characteristics. His friendly personality has aided him in a dozen different ways while he has been at Lakeside. He has helped his class whenever help was needed; he has been a feature writer for the TATLER; and he has spent many hours of hard work as an outstanding cheer leader. John has been able to instil much of his own enthusiasm in many of us. But one of the most important activities in which he has participated has been the Student Court; his seriousness and honesty have greatly aided in giving the Court a favorable start this year.

John has participated in Whitcomb football, basketball, and baseball during his three-year Lakeside career. He was able to arouse his own enthusiasm in his team-mates, and thereby help the morale of the Whitcomb club. He has been a consistent, hard worker, and we are sure that he will be able to practice medicine competently when the time comes.

College Choice: Brown University.

ALAN C. BEALL

Alan came to Lakeside in his freshman year and has ever since rocked the school with his "hot rod" enthusiasm; but, although he has given a lot of attention to cars, boats, and girls, he has not neglected athletics, extracurricular activities, or studies. He has been awarded several Gold Star awards and has been on the honor roll. He was elected vice-president of his class in his junior year and appointed to the Boarder-Dayboy Committee in his senior year. He has also served as Sergeant-at-Arms of the Whitcomb Club.

Al has participated in Whitcomb football for four seasons, Whitcomb baseball for two, and varsity track for one. Alan has also turned out for the ski conditioning group for two years. But his greatest accomplishment has been his ability to break his leg twice while participating in Lakeside athletic programs.

In the spring of his junior year, Alan retreated to California but returned to complete his senior year at Lakeside. His lively, friendly personality has won him many friends and many compliments. His determination to do his best won him the TATLER "rink" contest this year for being the "greasiest, gaudiest looking person on the campus." But, seriously speaking, Alan's constant effort and determination have made him one of the most outstanding seniors this year, both scholastically and otherwise. We are sure that he will make a good engineer or anything else, once he has put his mind to it.

College Choice: University of Washington, Colorado College.

Will: I will my prize-winning, conservative dress habits to Mr. Winter!

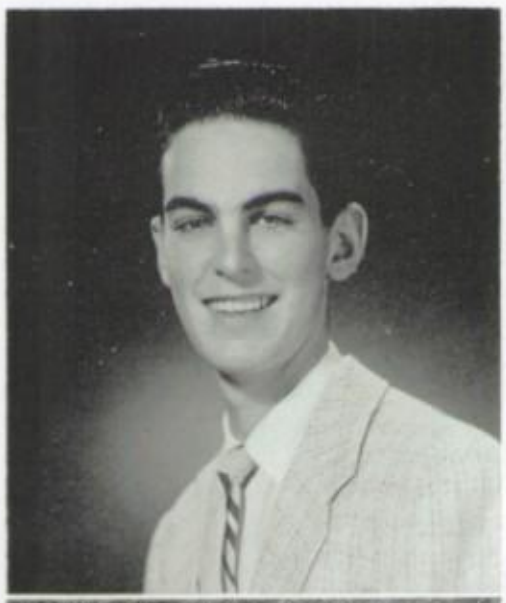
SIMEON CANTRIL

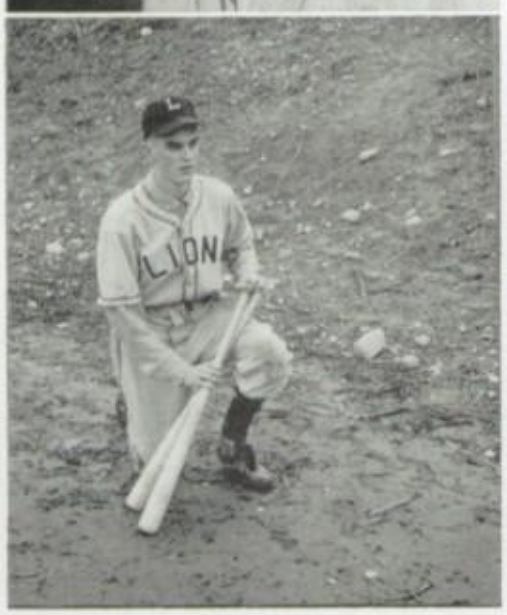
Sim joined the Class of '56 in the eighth grade. He immediately made a name as a doggedly hardworking scholar and has since won his gold star for several quarters and been on the honor roll often. However, scholarship was not his only endeavor; he is known as well for his hard work and determination as a Whitcomb football, basketball, and baseball player.

The number and diversity of Sim's extra-curricular activities is amazing. He was a member of the ski club and on the library committee. During the past year, he has served in various positions from photographer to assistant editor for the TATLER, and he has taken on the tough job of assistant editor of this year's Numidian. After gracefully losing the election for class president twice by one vote, Sim was finally honored by being elected to the vice-presidency of the senior class. Because of his long record of impeccable honesty and integrity, Sim was appointed to the Student Court, and the court elected him its secretary. In addition to all these activities, Sim has served consistently on committees for all organizations with which he has been connected, and found time to win a gold key art award. Sim has participated in all his activities always to the best of his ability. His example of hard work and responsibility will not soon be forgotten.

College Choice: Dartmouth.

Will: I will my senior math book to Tucker Ingham.





DEANE CARLSON

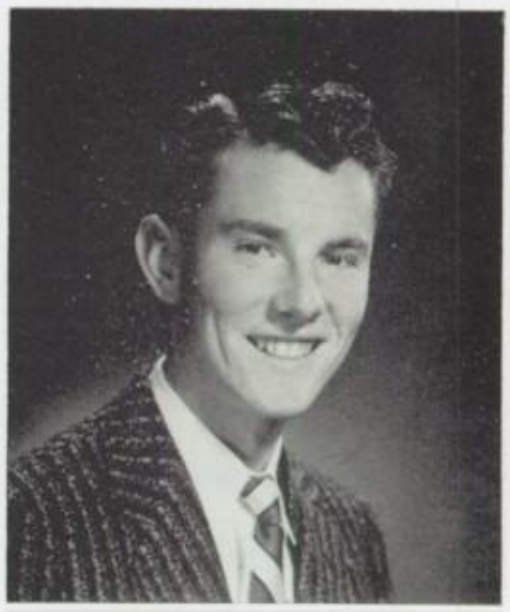
Deane has been active in athletics and other extracurricular activities as well as winning the Gold Star award several times. Deane participated in Brownell football, basketball, and baseball, excelling in all three. In his junior year, he was the sports editor of the TATLER; and in his senior year, he was the varsity football team's statistician. Deane was also the mainstay of the stage crew during all four of his upper school years. His knowledge and ability helped to make the drama club's presentations successful; his willingness to help was extended to many activities in the school.

As a senior, Deane took over the big job of head waiter. We will remember him working in the kitchen, checking here and there, and generally keeping things in working order. The boarding department and the whole student body recognize the fine job he has done in over-seeing the dining room. Deane was also elected treasurer of the Dormitory Council, proving that he was trusted and respected implicitly by his fellow students.

Deane's willingness to help has won him many friends and will continue to do so. He has been interested in railroading most of his life and hopes to make an occupation in the railroads. We are sure that he will be successful in that type of work; or, for that matter, in any other occupation he might choose.

College Choice: Washington State, Whitman.

Will: I will my 3:30 A.M. extra-lights, coffee maker and "no-doze" pills to Denny Reesl



BERTRAND BEASLEY CASSELS, JR.

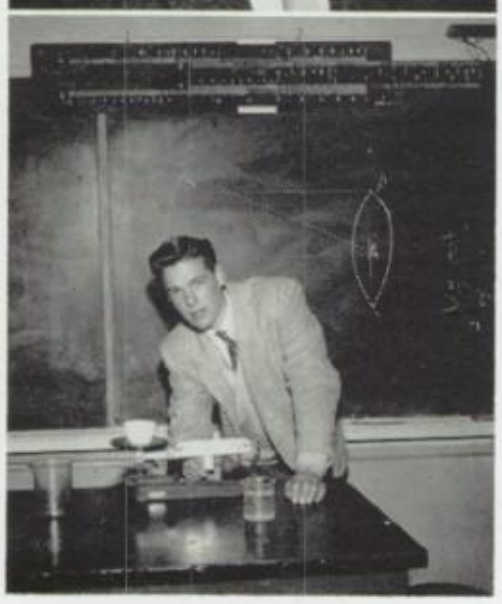
We all know Bert by his flaming red hair; according to legend, he should be quick-tempered, but this is not true in Bert's case. In fact, it is almost impossible to make Bert mad or even a bit angry. He is one of the most active and conscientious students in his class. He has turned out for Brownell football, varsity football, and varsity basketball. He has won two letterman awards in varsity basketball, and during his senior year, was awarded the Inspirational Trophy for that sport. Both his determination and his ability contributed to his winning this award and high honor.

Bert was elected sergeant-at-arms of his class in his junior year, secretary of the Brownell Club and president of the Athletic Council in his senior year. Also in his senior year, he helped start an active "pep" movement which helped keep high morale both in the teams and in the student body. His excellent spirit and friendly manner have aided in making him one of the most popular students in the school. Bert was the chief delegate to the annual Northwest Religious Conference, and delivered two chapel talks on this subject. He was also very active in planning school social functions and helping his classmates in any way possible.

Bert's interest in all school functions and affairs, his activity in them, and his enthusiasm have made him a vital member of his class. His diligence, ability, and friendly manner will all contribute to make him a successful engineer or naval officer.

College Choice: University of Washington.

Will: I will my well-thumbed, worn-out mathematics books to Mr. Lambert!



ANTHONY G. CHASE

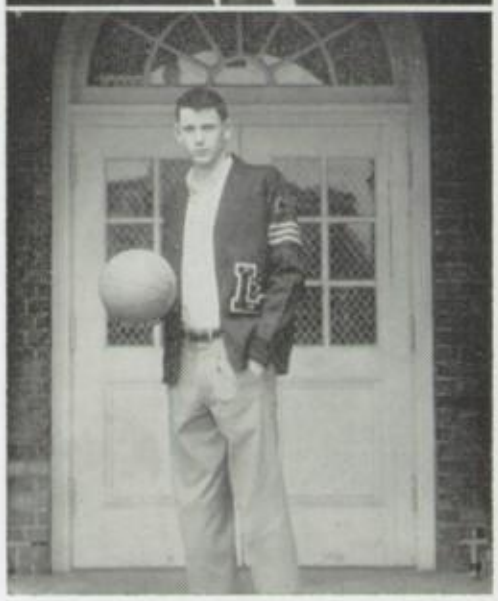
Tony came to Lakeside in his senior year and found no difficulty in making new friends and adjusting to his new school. Tony is a likable fellow, always ready with a smile or a joke or a friendly comment; but he is also a good, hard-working, conscientious student. He has participated willingly in many class and school activities, proving himself to be a loyal and deserving companion to many a Lakesider. He is another one of this year's graduating class who seldom shows his anger or disappointment, no matter how angry or disappointed he might be.

Tony is a pretty fair tennis player; but, being ineligible, he could not participate on the tennis team; he did, however, enter into the fall tennis program. He surprised himself and most Lakesiders with his agility on the basketball floor by competing in the winter Brownell basketball program and likewise by participating on the Brownell baseball team.

Tony proved himself to be a hard-working student this year; he hopes to enter law when he graduates from college, and we are all sure that he will become a competent lawyer aided by his diligence, determination, and ability.

College Choice: Harvard.

Will: I will my weekly allowance to John E. Ryan, Jr. III, so that he won't die in poverty!



TOWNE COLLINS

Towne has been active in a very diverse range of extracurricular and athletic activities. He has also been a hard-working and enthusiastic student, winning several Gold Star awards and having been on the Honor Roll list also. In his sophomore year, he was sergeant-at-arms of his class; in his senior year, he was a member of the dormitory singing group, the Ski Club, the Big "L" Club, and the NUMIDIAN staff.

Towne has probably excelled the most on the athletic field. He played one year of Whitcomb basketball and baseball; he has been a member of the golf team; but he has excelled in varsity athletics to a much greater degree. He won his letterman's award for varsity baseball one year. But he will be remembered at Lakeside mainly for his skill on the basketball floor; his grace, accuracy, and composure were unequaled. He won many games for Lakeside, and in gratitude, he has been awarded three letterman's awards for three years of competition. We have all enjoyed having Towne as a friend and a classmate. May he have the best of luck in the years to come!

College Choice: Stanford, University of Oregon.

Will: I will my position to anyone stupid enough to get caught!

JOHN COWEN

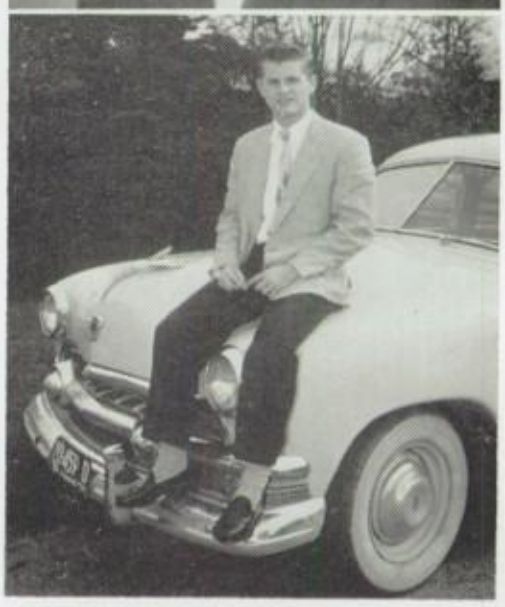
John has been at Lakeside throughout his junior high school and high school career. An avid supporter of the Brownell club, he has been interested and active in all of its school functions. He was an indispensable member of the stage crew for the play, **The Man Who Married a Dumb Wife.** For three years, John has participated in the Brownell football, basketball, and baseball programs. In view of his loyalty and competence, he was elected vice-president of the Brownell Club in his senior year. John is also an artist and won an art award at Frederick and Nelson's annual high school art exhibit.

John has set an excellent example for many Lakesiders through his enthusiasm and determination. In spite of his quiet personality, he is not one of those people who are noticed and known by only a few. During his six years at Lakeside, his pleasantness has gained him many friends; and his calm behavior has won him the respect of most Lakesiders. John's basic sincerity and straight-forwardness make him a logical and true friend in whom infinite trust can be placed. With such admirable qualities as these, he should easily make a success of his chosen career in consumer financing.

College Choice: Claremont, Colorado College.

Will: I will leave my teachers frustrated!

WILLIAM EVENSON



During Bill's four years at Lakeside, he has been extremely active in scholastic and extracurricular activities. His determination, diligence, and ability have made him one of the outstanding members of his class. He has won eight quarterly and two annual Gold Star awards, as well as much praise from his masters and fellow students. He has been a basketball manager, a member of the Ski Club, a reporter for the TATLER, sports editor of the NUMIDIAN, and a delegate to the annual Northwest Religious Conference during his senior year. In his junior year, Bill was elected secretary of his class and was a member of the stage crew for the play, **The Man Who Married A Dumb Wife.** There are not many other activities in which he could have participated.

Bill has competed in Parson football, basketball, baseball, and track. During his years at Lakeside, Bill has been recognized as a hard-working and determined fellow on the athletic field as well as in the classroom. He has not only made a name for himself in club athletics but on the ski slopes as well; he has competed in several 'freestyle' events for the ski team and has won or at least placed in most of them.

We are all sure that Bill will succeed at almost any task he may tackle; for he has the determination, the will, the spirit, and the ability to do almost anything. Having Bill as a classmate has been an enjoyable experience for all the members of his class; we all wish him the best of luck.

College Choice: University of Washington.

Will: I will my secret identity back to John Bartels!

MICHAEL FOLEY

Mike came to Lakeside in the middle of his sophomore year from Vancouver, B. C.; he is unique in having a dual citizenship, for he is originally from Florida. Mike was recognized early in his Lakeside career as the perfect diplomat with his sincerity, friendliness, and ready smile which helped cheer up those around him. Mike is never moody and always accepts the inevitable with a smile.

Mike was not eligible for varsity athletics until the last semester of his junior year; until then, he turned out for club athletics, excelling in football, basketball and track. But as soon as Mike was eligible for varsity athletics, he participated in varsity track and was recognized as one of the hardest working members of the team. In the fall of his senior year, Mike won his letter as a halfback on the varsity football team; that winter, he won his letter playing varsity basketball; and in the spring he again competed on the varsity track team. Mike's good spirits and frequent humorous remarks always helped to put the team in good spirits when the going was rough.

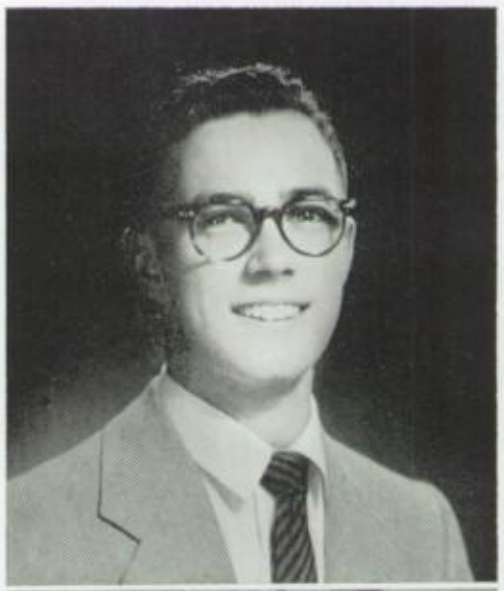
During Mike's short time at Lakeside, he became one of the most popular and trusted boys in his class; in his senior year, he was elected president of the athletically successful Brownell Club; but previously, in his junior year, Mike was elected treasurer of his class. Among all these activities, Mike found time to be a feature writer for the TATLER.

Mike has been awarded the gold star and has been on the honor roll frequently. As well, he has the unique ability to make friends easily; and for that reason, he will long be remembered by his classmates and by his masters as a hard-working and friendly student. We of the NUMIDIAN wish Mike the best of luck and are sure that he will be a success wherever he may be.

College Choice: Notre Dame.

Will: I will that there be no segregation!

TIM H. B. HALL



Throughout Tim's six years at Lakeside, he has been primarily concerned with the welfare of the school and of his classmates. Lakeside has benefited greatly from Tim's efforts and determination; he has been active in many exracurricular activities. Tim has been a member of the Senate each of his four upper-school years; during his senior year, he was appointed to the newly formed Student Court. Academically, Tim has excelled; he has been on the Gold Star list almost every quarter of his Lakeside career.

Tim is popularly known for his baritone voice; his interest in music led him to organizing a choir for the Wednesday chapel services, an innovation which has greatly added to the value and enjoyment of that gathering. He also inaugurated and supported a ten-minute chapel service every morning before school for those students who wish to participate. He has been a Lakeside delegate to the annual religious conference during his junior and senior years.

Tim's ability and interest in art enabled him to win a gold key art award and two "places" in the annual Northwest Secondary School Art Contest sponsored by Fredrick and Nelson of Seattle. Because of his artistic ability, he hopes to become an architect; we are all sure that he will achieve this goal.

Tim is seldom interested in himself and always interested in others. He has spent much of his time working in the Children's Orthopedic Hospital with the afflicted children. Through his work in the hospital, he has become a better and more conscientious citizen than perhaps anyone else in the class.

College Choice University of Washington.

Will: I will my operatic baritone voice and a pair of collapsable horns to Fogg, where they belong.

JOSEPH HENKE

Joe is one of the most outstanding members of this year's graduating class. He leads his class academically, having an almost perfect record on the Gold Star and Honor Roll lists, and having been active in the Cum Laude Society. There are few members of the student body who match Joe's record at Lakeside. He entered Lakeside's Class of '56 in the Seventh grade, proving himself a leader in the Lower School. He was elected president of his class in his freshman year, secretary of the Parson Club in his senior year, a member of the Senate for every term during his Upper School career, and vice-president of the Student Body in his senior year. As president of the Senate, he initiated the idea of the Student Court and served as president of that body during the last semester of his senior year. No other member of his class has served the school so consistently and faithfully.

Although Joe does not excel in athletics, he worked hard during two years of Parson football, three years of Parson basketball, and two years of Parson track. During his senior year, he was editor of the TATLER, a job which requires more time and energy than anyone can imagine. He also served on the chapel committee and was a delegate to the Northwest Religious Conference in the spring of his junior year.

Joe's outstanding abilities and qualities of leadership will undoubtedly make him a fine lawyer and an excellent citizen.

College Choice: Amherst.

Will: I will my dictionary to Mr. Taylor!

G. RICHARD JONES

Dick is one of that elite group of six-year Lakesiders. Dick will be remembered for his dynamic personality and endless energy. As an underclassman, he served enthusiasticly and consistently on committees. He was honored for his efforts this year as president of the senior class. He was assistant editor of the TATLER and worked on the NUMIDIAN staff. He served well in the Senate and on the Chapel Committee. In all these activities he contributed a great number of new and good good ideas and carried them through with enthusiasm.

He has participated in an extremely diversified field of sports. He has been a member of the ski club for three years and the golf team for three years. He has been on the rifle and tennis teams and has played one year of Parson football, basketball, and baseball.

As a further example of the diversity of his activities, he was part of a quartet, head waiter, and secretary of the hot-rod club. He has taken art for four years and won a certificate of merit for his work. Last year he represented Lakeside at the annual religious conference in Tacoma.

Will: I will myself to myself in hopes that I may become an individual.

College Choice: Colorado College.

VAN JORDAN

Van has been one of the most outstanding athletes at Lakeside during his five-year career. He has played varsity football for four years, winning a letterman's award both his junior and senior year. He has competed on the varsity baseball team for four years, winning a letterman's award every year. During his freshman year, Van was also a sharp-shooter on the rifle team. Van has held more athletic offices than any other member of his class; he was captain of the varsity baseball team in his junior year, captain of the varsity football team in his senior year, and president of the Big "L" Club in his senior year.

But we will remember Van not only for his prowess, but also for his spirit and determination; all of his team-mates have commented to the effect that without Van's excellent inspirational enthusiasm, Lakeside teams would not have been as successful as they have been. During the '55-56 basketball season, Van again contributed his time and energy cheerleading. During his senior year, Van served as president of the Parson Club, Sergeant-at-Arms of the Student Body, and a member of the Dormitory Council. Van has been a faithful and hard worker in the many extracurricular activities he has participated in. His loyalty and determination have been excellent examples to all his classmates, who sincerely wish him the best of luck for the years to come.

College Choice: University of Arizona.

Will: "I ain't got nothing to leave!"

WILLIAM KARR

Bill came to Lakeside in his senior year; and, as all students in this situation, he was faced by the difficult problem of adapting himself to a new school and making new friends. But Bill had little trouble, for he has a sharp wit and fine sense of humor which enabled him to adjust himself readily to almost any situation.

Bill excels in basketball; and, because of his ineligibility, he played Parson basketball instead of varsity ball. His co-ordination enabled him to become the best member of the team; the Parsons are greatly indebted to Bill for his efforts.

Bill participated in many class activities; and, whenever a helping hand was needed, he was there to help. He worked on the TATLER, attempting to initiate advertising to pay part of the expenses of the paper. Unfortunately, the idea could not become a realization this year because the paper was operating on such a small scale. This is a typical example of Bill's personality; for, upon arrival at Lakeside, he tried his hardest to help the school. Whenever Bill has an idea, he tries hard to promote it—an admirable attribute.

Bill hopes to attend the University of Washington, and to study law or architecture; we all know that he will be successful in either of these occupations.

College Choice: University of Washington.

Will: I will the Senior Circle to all the juniors with the "twitch."

NEIL ROGER MacDONALD

Neil came to Lakeside in his senior year, but he met the challenge of making new friends and adapting himself to a new school with the greatest of ease. Although he is a quiet, reserved student, his sense of humor, easy-going good nature, and willingness to work have won him the respect and friendship of everyone who has had a chance to associate with him.

Neil's athletic talent is swimming, but unfortunately, Lakeside does not have the facilities to encourage a swimming program. So, instead of swimming, Neil attempted to learn how to play golf this year. He has volunteered to serve his class, his student body, and the dormitory numerous times during the past year; his hard work and accomplishments have made him one of the most respected seniors in the dormitory. Because his fellow students realized that he was an excellent and trustworthy worker, Neil was elected to the Dormitory Council for the last half of this year. We will all remember Neil's smiling face appearing from behind some disguise during many a skit or "pep rally"; Neil is certainly an interesting and likable fellow and has been a great asset to his class.

Neil's primary interests are in aviation; throughout the last few years, he has become so keenly interested, that he has actually taken several flying lessons in order that he might be better prepared for college aeronautics courses. He is certainly a conscientious person, well qualified to perform any task he may encounter.

College Choice: San Jose State College.

Will: I will my M.G. to "Doc" Naiden and family!

RICHARD McCURDIE

Dick joined the Class of '56 in his junior year and was soon a popular member of the student body. His ever-present smile and likeable personality have won him many friends and will continue to do so in years to come. He has a sharp wit and vivacious personality that cannot be matched by many of his classmates and which will be a great help to him in any occupation he may choose to enter.

Dick has participated in Brownell football, basketball and baseball; in his senior year, he was recognized as one of the best players of the Brownell football team. He will always be remembered for recovering a fumble in the end zone to win the vital game of the season for his team. But Dick's best showing came on the ski team; he was also an active member of the ski club, which is greatly indebted to him for his new ideas and his ever-present enthusiasm.

Dick is one of the most easy-going and likeable members of his class; we all have enjoyed knowing him and being with him. We wish him the best of luck for the years to come.

College Choice: Whitman, University of Washington

Will: I will my grades to Sam Baker!

SAMUEL DAVID McKINSTRY

Although Sam came to Lakeside in the fall of his junior year, he soon distinguished himself in school activities. Constantly during his junior year, Sam volunteered to serve on class and student body committees; he became one of the most respected member of his class. In the spring of his junior year, Sam was elected treasurer of his class for his senior year and appointed business editor of the **NUMIDIAN.** During his senior year, Sam served on the Chapel Committee and was nominated to attend the annual Northwest Religious Conference at which he was an active participant.

Sam has been a strong member of the Brownell Club and the Ski Club; he played one year of club football during which he was recognized as a hard worker although not an exceptional player. In addition, Sam has enjoyed track and skiing during his two years at Lakeside.

Although Sam came to Lakeside at a difficult period in his high school career, he soon excelled academically; he has repeatedly been awarded the Gold Star and been on the Honor Roll. Because of his mathematical prowess, Sam is presently interested in engineering and business. Sam has been a great asset to his class and will certainly do well at any job he tackles.

College Choice: Princeton, Lehigh.

Will: I will my senior math book to Bob Enslow!

WILLIAM PHILLIPS

Once in a while a class is lucky enough to have a born leader in its midst, a boy who is hardworking, vitally interested in all activities, trustworthy, efficient, and intelligent. The Class of '56 found such a leader in Bill Phillips. Bill came to Lakeside as a freshman and has been building an amazing record of contributions to his school ever since. In recognition of his leadership he has been elected to the following offices: secretary-treasurer of the Ski-club, President of the Drama Club, secretary of his sophomore class, secretary of his senior class, secretary of the Whitcomb Club; for three terms a senate member; and for three years a Dorm Council representative. This year Bill was president of the Dorm Council, probably the toughest job in the school.

However, Bill has not limited his abilities to extracurricular activities. He has found time to participate on the ski team, win a letter in varsty baseball, and be captain of the junior varsity basketball team. He has also played one year of Whitcomb football, basketball, and baseball.

Bill has excelled in scholarship as well. He has won the Gold Star every quarter he has been here and has almost always been on the honor roll. Bill is at the top of his class. He is a member of the Cum Laude society.

In addition to all these things, Bill has found time to serve on the library and chapel committees as well as to act and to work on the stage crew for the school plays. It is certainly with justification that Bill has twice been awarded the President's Medal and once the Silver Medal for the underclassroom who has contributed most to Lakeside.

College Choice: Stanford.

Will: I leave the presidency of the Dorm to anyone willing to argue with "Bob" Spock about senior privileges.

GEORGE V. POWELL, JR.

George joined the Class of '56 as a freshman and immediately took his place as a leader. We all remember affectionately his sea-lawyer speeches explaining why we could or could not do something. Despite these occasional outbursts, George did his part in school activities. George served in the Senate and on the Athletic Council. He came to full bloom in his senior year as vice-president of the Ski club, treasurer of the Student Body, vice-president of the Parson club, and Editor of the **NUMIDIAN.** With his imaginative and active mind George was able to innovate ideas in each of these offices and carry them through.

On the athletic field George excelled. He won two letters for his performance in track, participating in that sport for all four of his years at Lakeside. As a senior he worked hard on the varsity football team, winning his letter. He also participated on the ski team, played three years of club football, one year of basketball for the Parsons, and was on the rifle team for two years.

George has won the Gold Star for six quarters and been on the honor roll for seven, an indication of his scholastic ability.

College Choice: Princeton.

Will: I will the mile to anyone dumb enough to take it.

JAMES ROONEY

Jim came to Lakeside in the middle of his junior year from Lewiston, Idaho, but it did not take him long to adjust himself to school. Soon after he came to Lakeside, he joined the stage crew for the play, **The Man Who Married a Dumb Wife,** and was recognized as being efficient and trustworthy. In his senior year, he was appointed assistant business editor of the NUMIDIAN, a difficult and tiresome job which requires many long and hard hours of work. He was also appointed to the senior class Dayboy—Boarder Council which planned many of the class activities. He was elected to the Dormitory Council in his senior year; he contributed much of his time and energy to the council, working out dormitory problems. One of the activities in which Jim participated was cheer-leading, one of the most frustrating and difficult tasks he could have volunteered for; his enthusiasm was greatly appreciated by all the athletic teams as well as by the entire student body.

Jim has twice been a member of the golf team and has participated in varsity basketball. We all will remember him for his drive, enthusiasm, and determination. Jim is friendly and liked by all members of his class. We are sure that he will be successful in his chosen occupation—business administration or chemical engineering.

College Choice: Wesleyan.

Will: I will my ears to the ground observer corps!

STEPHEN M. RUCKER

Steve's hearty and unique laugh is his trademark; with his keen wit and sense of humor, he is one of the most popular boys in his class. Although he is always eager and willing to tell or listen to a story, he is one of the most conscientious students in the school. Steve has been awarded the Gold Star and recognized on the Honor Roll several times during his long career at Lakeside, having joined the Class of '56 in the seventh grade.

Steve is an excellent tennis player, being the key member of the team in his senior year and winning three letterman awards in three consecutive years of varsity participation. And, in his senior year, he was elected captain of the tennis team. He was also an outstanding member of the rifle team for two years until that sport was dropped from the Lakeside athletic program.

Steve's literary and oratorical ability enabled him to participate in and win the annual Lincoln Forum twice, once in the Lower School and once in the Upper School during his junior year. Steve is a fine and a good companion; his amiability and his unique laugh have won him many friends. At present he hopes for a future occupation in banking or handling stocks, both of which, require intelligence and a good personality—Steve fulfills these requirements.

College Choice: University of Washington.

Will: I will my desert boots to Bruce Hanson!

MICHAEL SEEBER

Mike came to Lakeside from Kellogg, Idaho, in the beginning of his Senior year, but the job of making new friends and adjusting himself to a new school did not seem to bother him at all. Probably Mike's greatest advantage is that he always has a ready smile and a friendly remark, two of the most commendable attributes that anyone could have. One of the hardest things that a Lakeside student could do was to make Mike mad; even if he was angry with others, he would never let them know it. Because of his friendly, likable personality, Mike was immediately accepted as one of his class.

Because he was here for such a short time, Mike did not really have a chance to participate in many activities. However, he did enter into the golf and the ski programs, proving himself to be an active and loyal member of the ski club. One would not think that Mike could sing, but he proved differently while participating in the singing group which was established by several Lakesiders. Mike's willingness to help his classmates was displayed by his consistent volunteering to help with class projects.

Mike has had considerable experience with radio and pharmaceutical work and hopes to enter one of the two fields. His sincerity and good nature will aid him in anything he does; his classmates all agree that Mike has contributed greatly to the spirit of the Class of '56.

College Choice: Washington State College.

Will: I will my nick-name, "Helbert MacIntosh", to Robin Luehrs!

TOBY WALKER

Long, lean, and **humorous** are the three words which describe Toby best. His sharp wit and sense of humor are equalled by few in the school; his jolly manner eased the tension which always arises during a school year.

Toby has been a great asset to his class and to Lakeside. As a feature writer for the TATLER, his new and humorous ideas added greatly to its style and quality. During his senior year, Toby contributed much of his time and energy to cheer-leading, one of the most difficult and frustrating activities any boy at Lakeside can participate in. The 1955-56 varsity basketball team will remember his loyalty and arduous work during every game; Toby's friendly personality aided him in reflecting much of his own enthusiasm in Lakeside supporters.

One might think that Toby is not an athlete, but such a thought is far from the truth. In his junior year, Toby played Junior Varsity basketball, and in the fall of his junior year, he won his letter playing varsity football; Toby is considered one of the best defensive guards Lakeside has had in several years. Toby's spirit and enthusiasm helped keep the morale of the team high. Because he was ineligible during his sophomore year, Toby played Whitcomb football and basketball, greatly aiding the Whitcombs to excel in those two sports.

Although Toby's remarks may seem severe at times, they are really only in fun. He has been very helpful to his class and to the school. We are sure that he will succeed in business or in engineering.

College Choice: Brown University.

Will: I will my letter sweater to Tony Koessler!

ROBERT DENNY WATT, JR.

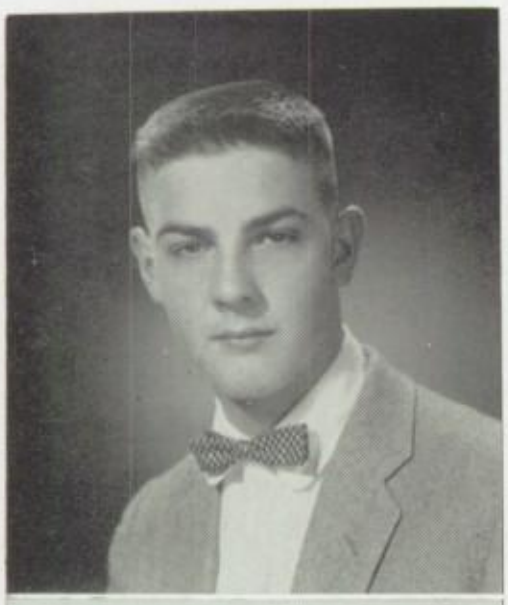
Throughout his four years at Lakeside, Denny has been very active in extra-curricular activities, ranging from class committees to president of the Ski Club. He has likewise shown that he is a fairly good student by winning several quarterly and two annual Gold awards as well as several honor roll awards. His willingness to co-operate and help his fellow students has been displayed by his many activities. Consistently, Denny has volunteered to work on class projects; for two years he has been the photographer for the TATLER, a job that requires a considerable amount of time and energy; in his senior year, he was appointed photography editor of the NUMIDIAN, and was elected president of the Ski Club.

Denny has participated in Whitcomb football as a half-back throughout his high school career; he has also participated in Whitcomb basketball for a year, and in Whitcomb baseball for two. But Denny's favorite sport is skiing, he has competed on the ski team for three years, winning a letterman's award each season for participating in jumping, cross-country, downhill, and slalom events. Because he was the outstanding member of the ski team and president of the Ski Club, he was nominated to attend the Seattle All-City Ski Council.

Because of Denny's willingness to learn and to help, he will undoubtedly succeed in accomplishing any goal he may set. Presently, Denny would like to enter engineering, and we are sure that if he once sets his mind to being an engineer, he will become a good one.

College Choice: University of Washington.

Will: I will the head of my '51 Studebaker to Tucker Ingham as a spare part!



SPENCER WOOD

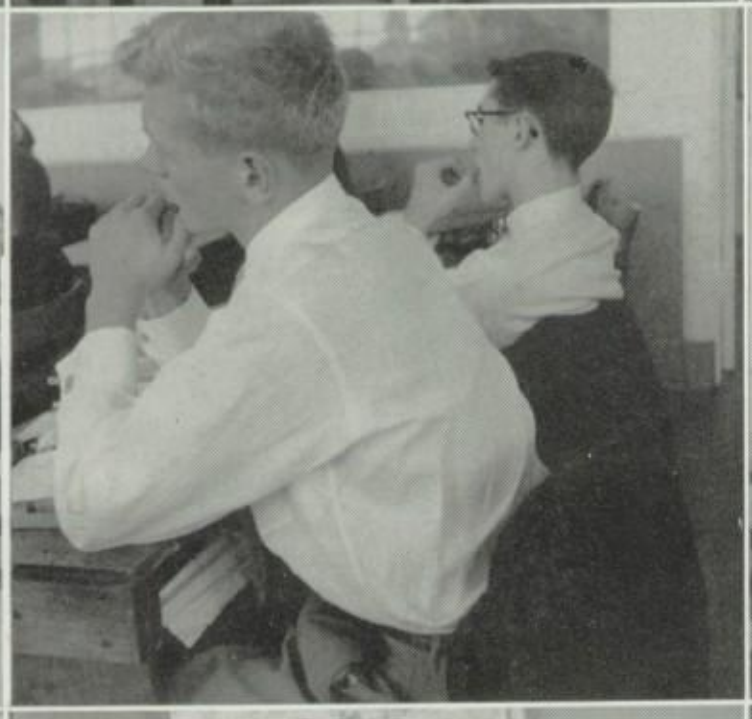
Spencer is one of the three members of his class who came from Portland. During his two year stay at Lakeside, he has been a great asset to his class and to the school. Spencer has done well both academically and athletically. He has participated in Brownell football and track, adding greatly to that club's potential. In his senior year, Spencer played varsity football and competed on the ski team in slalom races. He may not be the best athlete in the school, but he certainly is one of the most determined and enthusiastic.

He has been a member of the Ski Club and Chapel Committee, contributing much of his time and energy to both organizations. Twice he represented Lakeside at the annual Northwest Religious Conference, where he added greatly to the discussions and activities.

Spencer is one of the more reserved members of his class, but he has made many friends and no enemies during his Lakeside career. We will all remember Spencer for his friendly personality and his calm manner, which have been the two main reasons why he has been able to contribute so much to his class. We are all indebted to Spencer and hope that he will do well in his chosen occupation, engineering.

College Choice: Williams, Pomona.

Will: I will my recipes to Jerry Kravik!



THE CLASS OF 1957

When school started last fall, the junior class was made up of thirty-four students from all over the Northwest. Of the thirty who have weathered the school year, eighteen make their homes in Seattle, three each in Tacoma and Portland, and one each in Valdez (Alaska), Ellensburg, Spokane, Vancouver (Wash.), Everett, and Richland.

The way in which the juniors started functioning as a unit is a credit to the entire class and to the class officers in particular. Those boys most entitled to acknowlegement are: Sam Baker, president; Dave Cole, vice-president; Robin Luehrs, secretary-treasurer; and Bob Galland, sergeant-at-arms. The secret of the juniors' unity was the unique way in which they divided the responsibility among the entire class: two committees were set up, one to plan for the Junior Prom, and the other to handle all other class projects.

Dave Cole, Carl Sutter, Dave Lycette, Sam Baker, and Mr. Hi Fidelity all contributed toward making this year's version of the Basketball Dance a social and financial success—in fact, it was such a success financially that the Junior Prom could not help being a success socially.

However, its adroitness in dealing with class projects is not the junior class's only skill; the juniors have also been extremely successful in their endeavors in both athletics and studies. The juniors contributed about sixty percent of the personnel on this year's football team and were only slightly below this percentage in all other sports. The junior class was also consistently one of the best represented classes on both the Gold Star and Honor Roll.

Because the junior class has shown that is capable of solving most of the problems which confront a junior class at Lakeside, it appears that next year will be one of the best years in Lakeside's history, with the Class of 1957 leading the way.

THE CLASS OF 1958

The Class of 1958 has, during its sophomore year, managed to prove to the entire school that it is able to accept any responsibilities that are given to it. The sophomores have dealt very wisely with the projects which they have undertaken.

The sophomores have been lucky to have a competent group of boys to lead them during the past year. The sophomore class officers were: Pete Ambrose, president; Dave Jones, vice-president; Tucker Ingham, secretary; Semmes Mickelwait, treasurer; and Dick Rucker, sergeant-at-arms. These boys, who accepted the responsibility that was given to them, deserve a great part of the credit for the success that the Class of 1958 has had during the past year. The sophomores were active in all phases of school life, and their willingness to help under any circumstances greatly aided all other student organizations.

The sophomores were well represented on all of the varsity teams, and every one of the class helped to make this year's intramural athletic program a big success. However, their athletic prowess was not the sophomores' only virtue, for many of them were on both the Gold Star and Honor Roll.

Because the members of the Class of 1958 have worked hard to make a leading place for themselves in the history of Lakeside, the knowledge and experience which they have gained in the past two years at Lakeside will stand them in good stead. It is quite likely that the Class of 1958 will provide Lakeside with some of her most distinguished alumni, and it is a certainty that each of this year's sophomores will become a leader who will firmly uphold the reputation of his school.

THE CLASS OF 1959

After a very successful eighth-grade year, the class of 1959, with the help of twenty new boys, did much to prove that it can assume any responsibility given to it in the years to come. To prepare themselves for these responsibilities this year's Freshmen faced and solved all of the problems which confronted them during the past year.

The freshmen administrative body was made up of Bruce Bailey, president; Bob Suzuki, vice-president; Hayne Leland, treasurer; Kip Ingham, secretary; and Pete Shafer, sergeant-at-arms. These boys were assisted by Mr. Winter who proved to be a very able class adviser.

The freshmen excelled in both athletics and academic work: during the first semester, more boys made the Gold Star and Honor Roll from the Freshman class than from any other class; three of the lettermen on the varsity fooball team were freshmen; and six freshmen won their letters on the junior-varsity basketball team.

This year's freshmen class also took a very active part in all school activities, and sent, as their representatives, Ed LeCocq and Mike Malarkey to the senate, Pete Shafer and Doug Brooks to the Athletic Council, and Doug Brooks to the Student Court.

The Class of 1959 has shown that it can assume responsibility, and has demonstrated that it is concerned with the problems which confront the Student Body; furthermore it has shown that for the next three years the class will contribute a lot to the solving of these problems. We hope the Class of 1959 will be one of the most active classes in Lakeside's history.

MR. CARLSON:

During the past year, Mr. Carlson has served not only as Lakeside's Director of Athletics, but also as the coach of the football, basketball, and baseball teams and also as director and adviser to the Ski Club and ski team. Mr. Carlson has served as the physical education instructor at Lakeside and has also taught all Lakesiders the principles of good sportsmanship and fair play which cannot be overlooked in any education.

MR. CHAMBERLIN:

In 1956, Mr. Chamberlin, one of the new masters at Lakeside, took over the job of coaching the track team. Although he was faced with a lack of experienced runners, Mr. Chamberlin fielded a good team by instilling in the entire squad the principles of desire and determination which are so essential in all competition.

ATHLETIC COUNCIL

It is the thankless job of the Athletic Council to initiate and uphold the principles of the athletic code. The code, which is the constitution of the council, contains training regulations, principles of athletic participation, and requirements for athletic awards. The Athletic Council's purpose is to help promote Lakeside interscholastic sports.

The first function of the council is to deliberate on all problems connected with Lakeside athletics. Its second function is to act as a reviewing board; and, in the light of the ideals set forth in the athletic code, to grant or rescind all athletic awards at Lakeside.

This year's council, under the guidance of Athletic Director Mr. Carlson, President Bert Cassels, and Secretary Howard Adler, made a great deal of progress in making the Athletic Council a respected organization at Lakeside.

FOOTBALL CAPTAIN

Because of Van Jordan's natural ability as a leader, as well as a football player, he was the unanimous choice for this year's football captain. Whenever a critical play came along, the team could rely on Van to open up a hole big enough to drive a truck through. As the season was drawing to a close, and the team hadn't won a game yet, the boys became more and more keyed up. Then the game with Tolt, the league leaders, came along. With Van sparking the team every second of the game, the Lions handed Tolt its first defeat, and the Lions gained their most important victory.

BASKETBALL CAPTAIN

Towne Collins, this year's basketball captain, is one of the most versatile basketball players in Lakeside history. Towne's phenomenal jump-shot from anywhere on the floor helped him pace the team with an average of slightly over seventeen points per game. His ability as a leader was no less than that as a player. When Towne came to Lakeside as a freshman, he was not eligible. He won his letter in his sophomore, junior and senior years. As a junior, as well as a senior, he was the high-point man of the team. Wherever Towne goes to college, we are sure that he will have no trouble in making the team. We certainly do wish him all the luck in the world.

TRACK CAPTAIN

At NUMIDIAN press-time, there have been only two track meets. After these first two meets it was quite evident who the track captain was going to be. The election was held, and Dave Lycette was the team's choice. Dave is only a junior but he certainly deserves the honor. He earned his first letter in track as a sophomore. Dave participates in a number of different events. He is an excellent broad-jumper as well as a fine sprinter in both the hundred-yard dash and the relay. We are expecting a lot from Dave both this year and next.

BASEBALL CAPTAINS

This year the baseball was led by two very fine co-captains, Howie Adler and Van Jordan. Both of the co-captains were excellent ballplayers, Van as catcher and Howie as third-baseman, and both of them had very high batting averages. Both Howie and Van were worthy of the position as both have played baseball for all four years at Lakeside and are now polished performers.

FOOTBALL SUMMARY

At the beginning of the football season Mr. Carlson was faced with the somewhat dismal prospect of having to build an almost entirely new team. The senior mainstays of the team were Captain Van Jordan at guard, and Jim Atwood at end. These boys were greatly supported by oustanding Juniors like John Ryan, Mike Garrison, Tom Moore, and Bill Vandenburgh.

As the season wore on it became evident that Mr. Carlson was doing very well in his rebuilding as he discovered fine talent in Pete and Bruce Hanson, George Powell, and Murray Marsh. By the Sulton game a fine running and passing attack had been molded and frosh quarterback Pete Shafer was acting as an ideal general.

The student body, inspiried by the work of Bert Cassels, John Bartels, and Toby Walker were giving the Lions all of their backing, and after a tremendous homecoming rally the team proved their mettle by defeating Tolt.

Mr. Carlson instilled in each football player some of his intense desire and good sportsmanship and each one of us was made a much better man by the 1955 football season.

SEASON'S RECORD

ISSAQUAH—The Lions opened the 1955 football season under th lights of the playing field at Issaquah and in spite of a desperate goal line stand were behind 13-0 after the first quarter. John Ryan boomed over guard during the second quarter for the first Lakeside first down, and later in the game, J. R. III scored our first touchdown. Final score: 31-7.

BOTHELL—The first home game was against Bothell of the Kingco League and once again the Lions started slow, being behind 19-0 after one quarter had been played. In the second quarter, Bothell scored 13 points and Lakeside sent Ryan off tackle for nine yards and a touchdown. In the third quarter Bothell scored twice, once on a 75-yard run. Lakeside got back a little prestige in the last quarter, outscoring Bothell 6-0 on a pass from Garrison to Foley. Final score: 44-12.

BLANCHET—The Lions played host to the team from Blanchet, the Catholic school in Seattle, and due perhaps to a muddy field, but more likely to the spirit and drive of the Blanchet players, the Lions were unable to muster an attack.

MERCER ISLAND—For their fourth game the Lions journeyed to the sawdust covered field of Mercer Island High and a scoring duel developed between Dave Dorland of Mercer Island and John Ryan III of Lakeside. Dorland scored first in the first quarter on a short plunge, but after a fumble recovery by Powell, Ryan sprinted fifty yards for a touchdown. In the second quarter Dorland romped over Lakeside's center for eighty-five yards, but Ryan retaliated in the third quarter for eighty-eight yards. Dorland scored again in the third quarter on a sixty yard pass and that ended the duel. Final score: 19-13.

SULTAN—On a muddy field Lakeside had their third home game against Sultan. Early in the first quarter Lakeside's All-American candidate, John E. Ryan, III scored on a nice run and Garrison added the extra point. Sultan scored around the left end in the first quarter to tie the score and end the scoring for the half. In the third quarter Sultan scored twice and Jordan blocked one extra point. Then Garrison ran the kickoff back eighty-five yards for a touch down but in the fourth quarter Sultan scored again. Final score: 25-14.

TAHOMA—Lakeside's first victory came at the expense of Tahoma on Tahoma's mud flats. Foley climaxed a sixty-five yard drive by catching a pass in the end zone. Garrison drove over left tackle for the final score of the half. At the beginning of the second half the Lions received the kick-off and, aided by a total gain of forty yards by Marsh, scored, in the person of Marsh a T.D. Marsh was the day's outstanding performer as he gained a total of 121 yards. Final score: 0-20.

TOLT—On November 4th in front of a large homecoming crowd and on a very muddy day the Lions upset Tolt coach Roy Cottam's prediction that his undefeated team would romp over the little Lions. The Lions, through a tremendous team effort emerged victorius and gave the student body a chance to view some really fine football. The Tolt team went away with the feeling that they had met an inspired den of Lions, which indeed they had. Final score: 26-12.

EVERETT "B's"—The Lions, somewhat downhearted at having to play on a grade school field did not put on a very good show as they lost to the Everett "B's" at Everett. Many of the Lions were injured during this game and the team which was on the field at the final gun was made up of two centers, three guards, four halfbacks, and two tackles.

BASKETBALL SUMMARY

The Lions, coached by Wes Carlson, finished the season with a record of seven wins and ten losses. They finished fourth in the Lakeside League with a four-six record and won three of their seven non-league starts. After a bewildering start in the King-co League Jamboree, the Lions regained their confidence by defeating a powerful Skykomish team in overtime, and Orcas Island in the Lakeside-San Juan Islands series. Unfortunately, after Christmas vacation, a string of losses overshadowed the team's auspicious start; but the Lions, through determination and increased effort, found themselves once again in the winning column by defeating Shoreline and Mercer Island, each twice. The season was culminated by a decisive victory over Blanchet; and, in their only post-season encounter, the Lions sent the faculty back to their sewing room on the second floor of Bliss Hall.

The team statistics, however, bespeak only one aspect of the season. More important was the experience of participating in inter-school athletics from which each member of the team benefited. Not only did the players learn the fundamentals of the game, but they also evinced the qualities of spirit and desire which are so essential to every successful team.

Although the "B" Squad, coached by Jim Caldwell, was composed mostly of freshmen, it had a very commendable season, winning six of its sixteen games. The squad might have done even better had it not lost several games in which two points spelled the difference between victory and defeat. Undoubtedly the "B" Squad will provide next year's varsity with several promising prospects.

SCORING

Alder	58	60	37	153
Anderson	13	28	16	42

Ryan	6	19	4	16
TEAM TOTAL	281	398	208	770

THE VARSITY

COLLINS

Towne Collins, this year's team captain, proved to be the backbone of the squad by being the season's team and league high point man. A three year letterman, he will be greatly missed next season.

ATWOOD

Jim's promising season was cut short by injuries. When his ankles would permit him, Jim effectively employed his hook shot and jump ability to add power to the starting line up.

COLE

Although only a junior and the smallest man on the team, Dave more than compensated for his size with his tremendous hustle and fight. Undoubtedly next season Cole will be one of the squad's most valuable members.

GALLAND

"Stretch," unmistakably the squad's most improved player, used his height to advantage, clearing innumerable rebounds off the boards. Next year Bob's newly gained ability will add to the team's strength.

LYCETTE

Dave, though only a junior, was a co-winner of the inspirational trophy. His relentless desire held the respect of everyone, and his calmness helped the team out of many difficult situations.

CASSELS

Bert, because of his hustle and desire throughout the season, was also awarded the inspirational trophy. We will always remember Bert for his bull-dozer style of driving for lay-ins, in which he would literally plow through arms and legs toward the basket.

RYAN

John found out early that basketball utilized a set of rules that was different from football rules, and his hustle and desire to excel in basketball were a great help to the team.

FOLEY

Mike provided the color for the team this year with his picturesque style of shooting and dribbling. Moreover, Mike's constant support and determination helped the team more than any amount of natural ability could have.

ADLER

In his last year of varsity basketball, Howard was one of the indispensable men on the team. He will be remembered for his aggressiveness, rebounding and shooting ability and he will indeed be missed next season.

ANDERSON

As a sophomore, Howie had a very successful season, playing several fine games for Lakeside. With two years of eligibility remaining, Howie has opportunity to contribute a great deal to Lion basketball.

VARSITY BASEBALL

At the time of this writing, the Lions have played three league games, winning two and losing one. Lakeside's baseball chances this year are excellent. The team is certainly not an inexperienced one; six men, five of whom lettered last year, returned. The Lion battery consists of Deane Carlson, Ed Browne, Pete Shafer and Pete Hanson, pitchers, with letterman Van Jordan as catcher and also Richard Rucker. The following positions have been played by returning letterman; first base by Howie Anderson, second base by Craig Calvert, third base by Howie Adler and right field by Gary Reed. The shortstop position will be divided between Dave Cole and Fritz Cantonwine. The outfielders are John Phillips, Bill Vandenburgh, and Dick McCurdie. At the plate, Howie Adler has been the leading hitter and has already set a new "home run" record. He is followed closely by Van Jorden and Pete Shafer. Deane Carlson and Bill Vandenburgh are also raising their averages rapidly. If the predictions hold true, with a little luck the Lions will win the Lakeside League title.

TRACK

The Lakeside track team faced very strong opposition this year. Edmonds, one of the best track teams in the Northwest, was a scheduled meet. Ballard and Roosevelt, large city schools, also competed against Lakeside.

To cope with this schedule, Lakeside had only two returning lettermen—Dave Lycette (broad jump, high jump, 100-yard-dash) and George Powell (mile, hurdles). These two boys were leading point winners along with freshman Cody Rembe (pole vault, 880).

Our new track coach, Mr. Chamberlin, organized the team, but the shortage of recruits was a problem. However, in spite of the ineligibility rule, Lakeside fielded varsity, track, baseball, tennis, and golf teams. In view of this fact, the track team certainly held its own.

GOLF TEAM

This year's golf team, coached by Mr. Johnson and captained by Jack Lynch and Murray Marsh, compiled a very respectable record in their competition during the spring. The team did not have any one outstanding player, as the first four positions were always being changed. However, almost all of the boys played in a match and they all played the game seriously and proficiently. The outlook for next year's team is very bright as only one member of the team is graduating, but this year's team did very well in their competition with schools like Tahoma and Everett.

TENNIS

This year's tennis team is handicapped by the fact that it is mainly composed of inexperienced and young players. There is only one returning letterman. Despite this burden, the team has a courageous spirit and has made a fine showing. A great deal of the credit should go to Mr. Bjerke, who has done an outstanding job of shaping the team into a functioning unit.

The one returning letterman, Steve Rucker, is an aggressive player who at present holds the number one spot on the squad and is this year's captain. Among the new blood on the team is Wells Bekins, whose main strength lies in his fighting spirit. Another new member, although a senior, Spencer Wood, has shown steady improvement. Next on the ladder are Tony Koessler, a boy with excellent form, and Jeff Brady, an up and coming young athlete. John Cowen and Bob Leighton round out the squad.

Against very stiff competition, the team has won two and lost three. For the first match of the season, they journeyed to Tolt where the squad won three to one. Next they traveled to Snohomish, but not accompanied by such good fortune, losing eleven to one. In following weeks they were defeated by Tahoma and Roosevelt. But they came back to soundly trounce Everett, five to one.

Since the team is steadily improving, it looks like they will build up a good record in their remaining seven matches. The brightest side though is the prospect for the next years, when the young members of the present team have gained valuable experience.

SKI CLUB

The Lakeside Ski and Outing Club with a membership of ninety students was under the leadership of Denny Watt, president; George Powell, vice-president; and Bill Phillips, secretary-treasurer. With the help of Mr. Carlson, the advisor, and Hal Ryan, the coach, the ski team, the most active part of the club, trained in the ski-conditioning course. The ski team, which lacked experience, was made up of sixteen students with only three returning letter men: Denny Watt, Bill Phillips, and Dick McCurdie. With practice from several Steven's Standards, the team started its interscholastic competition.

The first race was the All-City Ski Tournament which determined the city's four-way ski championship. In the cross-country our team was third with Ambrose coming in tenth, Watt fourteenth, Phillips sixteenth, Branchflower twenty-fifth, and Marsh twenty-seventh. In jumping, with the aid of McCurdie, Watt, W. Phillips, Ambrose, and T. Ingham, the team was still in third place. In the downhill race the Lakeside team placed a strong third. Two members raced very well: Dave Jones was seventh and William Phillips was ninth. However, the ski team completely lost its standings when they turned in poor results in the Slalom. Because of their showing in the All-City, Watt, McCurdie, and W. Phillips were asked to the Washington State Meet. The Beta Cup, which had been postponed, had not been held before the **Numidian** went to press. Although Watt, Phillips, and McCurdie are graduating in June, there is a strong group of underclassmen who should be able to make a powerful team next year.

STUDENT GOVERNMENT

With the establishment of a student court several changes were made in Lakeside's student government. The vice-president, Joe Henke, became the head of the court, and the president, Joel Baker, chairman of the Senate. The basic duties of the other officers have remained the same. Dave Lycette has served as secretary in both the student body and the Senate meetings. George Powell, the treasurer, has kept track of all class, club, and student body funds. Van Jordan held down his sergeant-at-arms position with an iron hand.

With the approval of the student body the Senate institutes and carries out student affairs. This year the Senate conducted a record breaking U.G.N. drive in the fall, held the annual student body dance at the Norselander, and amended the constitution to provide for a student court. After much debate the Senate decided to award the President's medal to those boys who put the most time and effort into extracurricular activities and to make a separate award to boys who display outstanding effort in the club sport program.

This year there was a new organization formed in the Lakeside student government—the student court. Although there were some students doubtful of its initial success, the court proved its ability to cope with disciplinary problems. Much valuable experience was gained this year, and we hope that in the coming year the court will be able to relieve further the faculty of the thorny problems of regulation and discipline.

At present the court is concerned with traffic and smoking violations and general conduct. There has been a marked improvement in respect for the rules and consequently a boost in the school's morale. We are sure that the court will continue its good work.

DORMITORY COUNCIL

Under the leadership of Bill Phillips, president, and Jim Atwood, vice-president, the dormitory council started the new year with several projects waiting to be accomplished. Since the preceding spring, when the new council was formed, the members had been planning to raise the morale of the dormitory, to smooth the relations between the boarders and the day-boys, to supply adequate entertainment for the boarders, and to raise the prestige of the council both among the boarders and among the day-boys. The main problem in the dormitory has always been its fear and disrespect of the council, which was, in fact, just a disciplinary body. Obviously, student government would not be healthy under such conditions, which, if continued, would possibly reduce the council to nothing.

From the beginning of the year, despite certain disuniting elements, the council passed many measures designed to raise the morale of the dormitory students and to raise the prestige of the council. The foremost of these measures was known as the "Car Deal." This measure allowed certain seniors, by approval of a dormitory car committee, to bring their cars to the school for weekend use. Another feature measure was the liberalized policy concerning off-campus permissions for the whole dormitory. Most people consider dormitory life as penitentiary-like. Indeed, the exact opposite has become true; actually, most of the students may leave the campus at almost any time within reason. The council also succeeded in revising the dormitory constitution, which will provide for fairer and more just government. And finally, but not least, the council, with the combined efforts of the dormitory, sponsored the first dormitory dance, which was one of the most successful and most unique dances this year.

For their contributions, special recognition should be given to other members of the dormitory council: Van Jordan, Neil MacDonald, Jim Rooney, Jerry Kravik, Robin Luehrs, Tony Koessler, Hayne Leland, and John Drumheller.

HONOR ROLL

Seven years ago Robert S. Adams, our late headmaster, initiated the honor roll, which is designed to stimulate achievement in scholarship. A boy who has a "B" average and no grades below "B" for any quarter qualifies for the honor roll during the following quarter. Boys who make the honor roll are not required to attend any study hall.

GOLD STAR

After a request from a student delegation, Charles K. Bliss, Lakeside's first headmaster, originated the Gold Star. The star has become one of Lakeside's most honored traditions and cherished awards. Boys awarded the Gold Star must have the qualities represented by each of the five points of the star. These are: scholarship, athletics, citizenship, effort, and fellowship. A joint student-faculty committee decides who shall be honored with a Gold Star.

THE LIBRARY

Since 1952, when it was first opened, the George Dodson Fix Memorial Library has provided the boys of Lakeside with an opportunity of procuring a wide assortment of books, for both reference work and leisure reading. The building, as are the others on the campus, is of brick construction with Georgian colonial design. The interior is well lighted and comfortable. There is also ample space for the various books, magazines, and pamphlets to which the students may refer. Mrs. Eiseman, the librarian, with the co-operation of the library committee, has continued to keep the library a place in which reading can be done with efficiency and pleasure.

CHAPEL

Lakeside recognizes that spiritual guidance is as important as academic and physical training in education. Since Lakeside is a non-sectarian school, the services are broad in nature, and expose the student to fundamentals in religion which permit each boy to evaluate these messages in relation to his own creed.

Six outstanding guest speakers stood at our podium this year: Father Gowen, pastor of the St. Barnabus, Episcopal Church on Bainbridge Island; Bishop Bayne, of the Diocese of Olympia; Reverend Richard Bell, director of Westminister House at the University of Washington; D. Chadborne Spring, of the East Side Unitarian Church; Mr. William Hanson, of the American Friends Service, and Father Eric W. Jackson, of Seattle's St. Paul's Episcopal Church.

Religious scholars from our own faculty were among the speakers. Mr. Strong delivered a series of inspiring talks relating education and religion, and Mr. Carlson spoke on the connection between the physical and spiritual world. Mr. Lambert gave an impressive and memorable talk on the importance of understanding our religion—the strongest weapon against communism.

Student body participation in the Chapel has taken great strides this year. After three years of continual struggle for organization and leadership, the choir has earned a permanent position in the choir loft. Its unified voices give substantial support to the congregation, and during the coming years, with proper leadership, the choir should continue its service by singing apart from, as well as with, the congregation. This year the student speakers were Bill Phillips, Bert Cassels, Joel Baker and Tim Hall.

Last fall the joint student-faculty chapel committee authorized a voluntary daily chapel service. The short period of morning worship starts with a few minutes of silent meditation, followed by a passage read from the Bible. The service is concluded with prayer. The voluntary morning worship has personal significance which can only come from the deep individual relationship between Man and God. It provides a quiet break for meditation in the strenuous routine of our daily lives.

TATLER

This year's TATLER has been a great improvement over the paper of previous year. One of the innovations this year was the varitype process which made for a much better looking and more interesting make-up. A series of articles on colleges provided interesting reading. The TATLER editorial policy was varied and stimulating, and produced some healthy results in the form of action. To sum it up, the TATLER was good-looking, informative, amusing and stimulating. Next year the TATLER will no doubt be even better.

THE NUMIDIAN:

The job of putting out a yearbook requires the help of a great many people, and it is common for many of these people not to receive any credit for their work.

Both Mr. Taylor and Mr. Goldsmith have helped immeasurably on this year's NUMIDIAN; Joe Henke has contributed the **Tatler's** facilities and utilities; and many students have written articles.

Rowland Johnson of Rowland Studios deserves special thanks for the time he spent on the photography for this book; Artcraft Engraving did all of the engraving and greatly helped in crucial moments; and Mr. Heidi and Seattle Printing deserve special thanks for standing by and helping us to weather even the most trying moments; and last, but not least, the entire student body and the advertisers, who make this book possible, deserve many thanks.

THANKS TO ALL OF YOU.

LOWER SCHOOL STUDENT BODY

Perhaps one of the most active in the history of the Lower School, this year's senate did much in the improvement of the constitution, amending it a half dozen times. It also organized and held a dance for the students on May 5.

The senate and officers were very efficient in the routine work to be done; and disciplinary actions, and the passing upon of citizenship marks, among other things, were quickly accomplished. Mr. Spock and Mr. Dodd, the latter officially, gave a helping hand whenever needed although that was not too often.

Much interest was taken in the senate by the student body and several controversies arose, especially about what the dues collected by the senate should be used for.

The eleven boys responsible for all this action were: John Drumheller, President; Bob Laughlin, Vice President; Sandy Bernbaum, Secretary-treasurer; and Lewis Pearl, Sergeant-at-Arms. The senators from the eight grade were: S. Smith, B. Steen, J. Baker, and D. Glant. Those from the seventh grade were: J. Griffiths, B. Maston, and J. Allison.

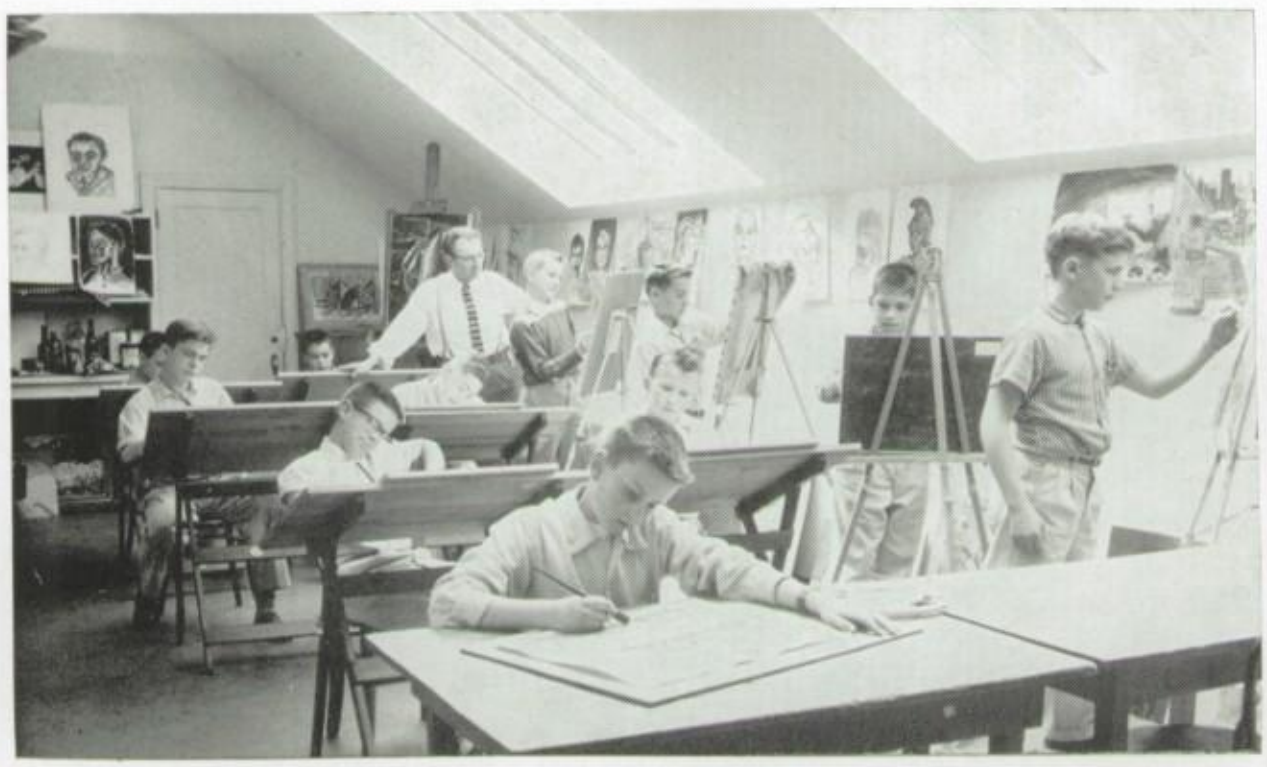
ART

A seriousness of purpose dominates the three Lower School art groups who once a week, on different days, make the long climb to the art studio on the third floor. A second indication that these twenty-four boys appreciate this opportunity to learn the basic principles in sketching, watercolor and oil painting is substantiated by the fact that they must each week give up one day of athletics in order that they may attend.

To accommodate the request by seventeen boys for sketching, two classes were organized. In learning the basic principles of lay-out, perspective and various techniques, the boys, while working primarily with charcoal, also use pencil, French conte sticks and pastels. Mr. Harris, the art instructor, was so impressed by the progress of these groups that he introduced life sketching after the Christmas holidays.

Working at creative sketching projects since September were Bacon, Baila, Backus, Haven, D. Henry, B. Henry, S. Jones, Lander, Miracle, Naiden, Pierre and Wells. Joining the class at mid-year, J. Griffiths, G. Griffiths and Allison now attend. Next year these boys may elect watercolor or oil painting if they wish.

Preferring a more colorful medium, including a palette, a water jar, and an interesting assortment of brushes, five boys, Bell, Dally, Maston, Williams, Todd and Drumheller, have each completed several watercolor paintings, including landscapes, marine scenes and still life. As this is the most difficult of all mediums, Mr. Harris has been very proud of several of these completed projects. Special mention must be made of Arthur Robbins, who so loves his oil painting that he would risk asphyxiation by the fumes of linseed oil if the art instructor would permit him to attend class every day in order that he could cover canvas after canvas.



ASSEMBLY FORUMS

One of the outstanding required opportunities in the Lower School is the experience of presenting two forums a year to the student body and masters. These forums, this year, were under the supervision of the Social Studies instructor, Mr. Dodd, who said, "A good forum consists of an interesting topic, good material, and presentation in a clear, interesting manner."

The forum grade for each individual is recorded on the Maroon and Gold Chart. An "A" forum receives 50 points; a "B" forum, 35 points; and a "C" forum, 20 points.

Some of the excellent "A" forums this year included John Drumheller's "Radar," an interesting account of how radar works; Tom Wyckoff's "Operation of the Mitral Valve," an interesting case of surgery on the heart; John Baker's "The Jet Age," discussing, the jet; and Stephen Smith's "The Rolligon," a vehicle that moves on rubber bags.

Other "A" forums were Carter Smith's "Brice Canyon;" Bruce Maston's "Flying Saucers;" Jan Johnson's "Halloween;" Jim McClelland's "The Ice Breaker;" and Jim Allison's "Prehistoric Man."

LINCOLN FORUM

One of the greatest gifts that a boy is able to contribute to the prestige of the Lower School, to his team, and to his own personal satisfaction, is his ability to write and present a speech on a great American. The essence of this kind of work is well shown in Lakeside's traditional contest, the Lincoln Forum.

Designed to promote better use of the English language and to draw interest in public speaking, this twenty-nine-year-old custom of the school, developed by Lakeside's first headmaster, Charles Bliss, was executed under the direction of Mr. Harris as a project in his English classes. Until just a few years ago, competitors from the whole school participated. This year, only the Lower School took advantage of this opportunity.

After the sixty-two preliminary speeches were heard, twelve boys were picked to speak in the semi-finals. Those were John Baker, Dick Bell, Tom Wyckoff, John Drumheller, Andy Williams, Brantley Holt, Bob Laughlin, Jim McClelland, Stephen Smith, Sandy Bernbaum, Carter Smith, and Lewis Pearl.

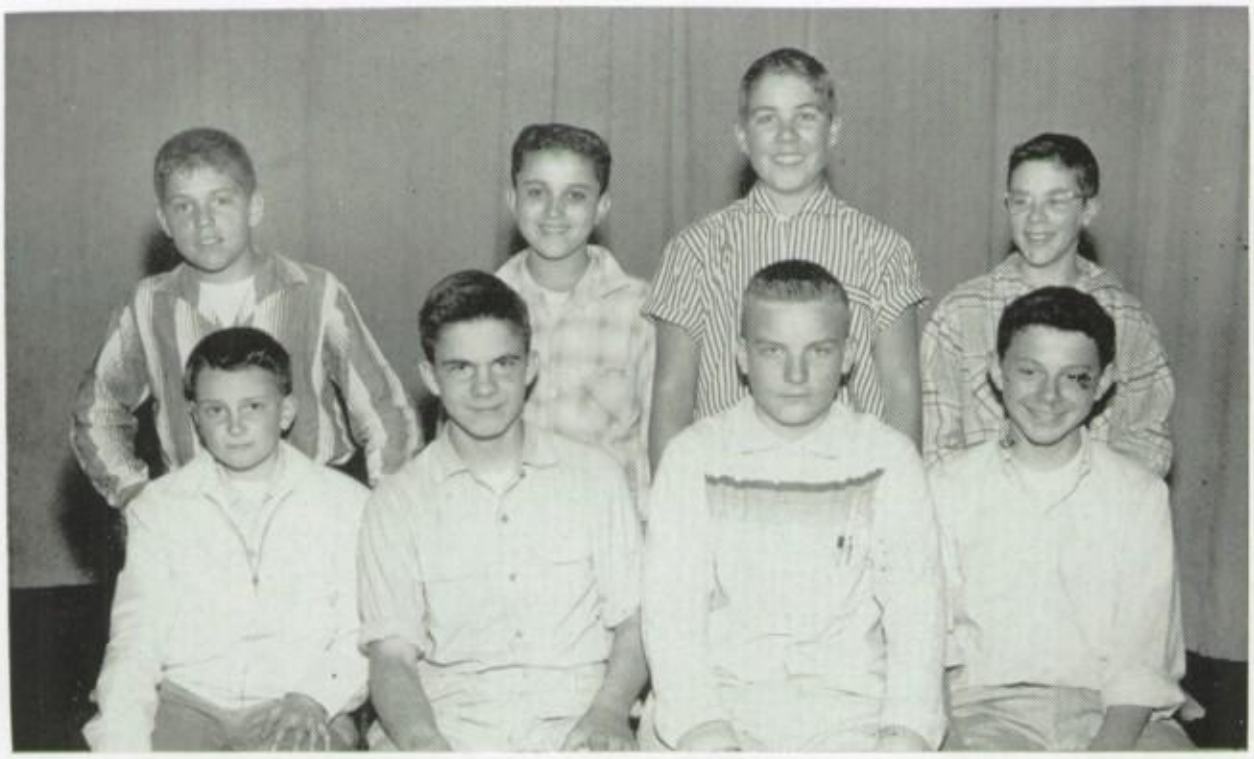
Six of these boys were chosen to speak in the Upper School study hall in the finals.

Lewis Pearl, "The Unheralded Citizen"; Tom Wyckoff, "Audubon"; John Drumheller, "Woodrow Wilson"; Sandy Bernbaum, 'Grant, the General"; Stephen Smith, "The Benefactor of Mankind;" and John Baker, "That Freedom May Reign," the finalists, were judged by Mr. Strong, Dr. Naiden, and Mr. Taylor. The winning forum, "The Benefactor of Mankind," was announced by Mr. Strong through all the clapping, whistling, and shouting of a victorius celebration.

As it has been for some twenty odd years, the winner won the Lincoln bronze medallion and a hundred points on his team chart.

We all congratulate Stephen Smith for his fine speech on Thomas Edison and for his strong perserverance when he spoke before the large Lincoln Forum audience in March.

Lakeside's oldest tradition, the Lincoln Forum, has come and gone this year; but the sharp staccato of the finalists' voices are still vibrating in the minds of all who heard.



HONOR ROLL

The Honor Roll is an award for outstanding academic achievement throughout the school year. It was started seven years ago by Robert S. Adams, the late headmaster of Lakeside School. To receive this award, a boy must have attained a scholastic average of "B" or better; and he must have no grade below "B-."

The few people on the Honor Roll are not obligated to report to study hall but are allowed to spend their time elsewhere on the campus.

Every quarter a person makes the Honor Roll, he is awarded twenty-five points on the Maroon and Gold charts.

Six eighth graders, who have this year made the Honor Roll for three quarters are: Richard Bell (G), John Drumheller (G), Douglas Glant (M), Jan Johnsen (G), Stephen Smith (M), and Tom Wyckoff (M). The only seventh grader to make the Honor Roll for three quarters is Jim Griffith (G).

One eighth grader, who made the Honor Roll two quarters, John Baker (M), may attain this award for the year by achieving the scholastic requirement during the fourth grading period.

THE GOLD STAR

Our first headmaster, Charles Bliss, originated our oldest and one of the school's finest traditions, the Gold Star. The Gold Star is awarded each quarter to those boys having a scholastic average of "C" or better, a high citizenship rating, and good sportmanship. This award, if received three out of the four quarters, may be kept permanently.

The five points of the Gold Star stand for various achievements of a good student, which include scholastics, athletics, character, fellowship, and effort.

The boys who have won the Gold Star for three quarters are: John Baker, Richard Bell, John Drumheiler, Douglas Glant, Steve Smith, Tom Wyckoff, Jim Griffiths, Bruce Maston, and Bill Steel. Two quarter winners are: Steve Backus, Bob Baila, Jan Johnsen, and Jim McClelland.

FOOTBALL

The Maroons, guided by Mr. Carlson, won three very hard-fought games against the Golds, coached by Mr. Dodd. With excellent coaches and players on both Lower School teams at the beginning of the football season, it looked as if there was going to be keen rivalry between the two teams. Indeed, there was with the main stays of the Golds: Lewis Pearl, fullback; Carter Smith, quarterback; and David Frieser, right halfback. The outstanding players on the Maroon team were: Tom Shafer, quarter back, Cory Beall, right end; and Steve Smith, center.

After the first game on October 20-21, which the Maroons won, 19 to 13, the Golds still had the requisite spirit to win the football season. Their hopes, however, were shattered by the the next game, played on October 27-28, in which the Maroons trounced the Golds, 13 to 0. In the last game on November 3-4, the Golds, having lost some of the spirit since their chance of winning two out of three games was blocked, were beaten 20-7.

BASKETBALL

This years Lower School basketball season ended in victory for Mr. Dodd's Golds. The Gold's first team won six games and lost four, while their second team won seven and lost only three games.

After winning the first two games, the Golds were never behind.

The first team for the Maroons included Tom Shafer, Pete Gans, Cory Beall, Bill Pierre, and Doug Glant. The Golds included Bob Laughlin, David Frissen, Lewis Pearl, Bill Steen, and Barclay Perry.

The high scorers for the season were: David Friesen, rating first, with 64 points; Tom Shafer, running a close second, with 63 points; Lewis Pearl, playing well, with 60 points; and Bob Laughlin, fourth, accumulating 46 points.

One of the best played games was one in which the Maroons edged the Golds 11 to 10. At the half, the score was tied at 6 all. In the second half, helped by Tom Shafer's 3 points, the Maroons went ahead to win.

All in all, it was a good season; and the well-rounded Gold five deserved the championship.

TRACK

As the track season for the Maroons and Golds has just started, there have been few practices but the outlook is fairly good.

Both teams are about equal in strength, and there is a good chance that some long standing records might be broken.

Some of the prospects for the Golds are Bill Steen, Bob Laughlin, and Carter Smith; for the Maroons, Tom Shafer, Tom Wyckoff, and Pete Gans show a great deal of ability.

There will be plenty of competition whenever the meets are held.

The coach for the Golds is Mr. Dodd, and the coach for the Maroons is Mr. Carlson.

All in all, the track season looks as if it will be exciting.

BASEBALL

As the Numidian goes to press, the first official game of the 1956 season between the Maroons and Golds has been completed.

The Golds' lineup was as follows: Whitney Smith, catcher; Louis Pearl, pitcher; Chuck Wood, first base; Barclay Perry, second base; David Friesen, shortstop; John Drumheller, third base; Bob Laughlin, left field; William Steen, center field; and Sandy White, right field.

The Maroons' lineup included Jan Miracle, catcher; Thomas Shafer, pitcher; Jensen Wilkins, first base; Peter Gans, second base; William Pierre, shortstop; Andrew Hilen, third base; John Clancy, left field; Douglas Glant, center field; and Ken Ritter and Mark Pass, right field.

After the first half of the game had been completed, the Golds were ahead by a score of 3-1. The Maroons, getting their only run from a base on balls, remained hitless that far in the game. During the second half of the game, also in which they remained hitless, the Maroons managed to score two runs. But this was not enough, for the Golds came back and scored three more runs and won the game by the score of 6-3. The Maroons' coach was Mr. Carlson and the Golds' was Mr. Dodd.

By the way the first game was played, it looks as if it is going to be an exciting and successful season.

Look to the FUTURE with a savings account

When you open a savings account at Seattle Trust & Savings Bank, you do more than deposit some money toward your future. You establish a personal banking relationship—you learn how to handle money and how a bank works closely with those it serves.

Today, a student must be prepared in many ways to live a full and useful life after school days are over—not the least of which revolves around finances. Soon it will be up to you to help make your neighborhood grow—to own a home and help build a church—to run a business and pay taxes. Now is the time to learn to put money to work effectively.
